## **Rabbit Care Support Volunteer**

Rabbit care support currently involves assisting with weekly pen cleaning and litter box changes. We are currently seeking this weekly assistance for one hour on Friday evening or Saturday morning, as scheduled, at our Coaldale intake location.

If you are interested in helping to socialize bunnies, we invite you to consider fostering!

### **Description**

Potential tasks include:

- Sweeping/wiping down pens
- Emptying and re-building litter pans
- Ensuring rabbits are fed and watered
- Ensure rabbits have chew/play toys
- Reporting any rabbit behavior changes or concerns
- Rabbit grooming (training provided)

\*As this role can involve a lot of bending and lifting, it may not be suitable for people with back or knee problems.

### **FUTURE FACILITY**

We hope to centralize our adoptees to a facility in the future. At that time, we will be seeking volunteers willing to assist with morning and evening bunny care throughout the week on rotation. (Volunteers will be able to select which days/times work best.) There will also be options to socialize bunnies.
